

ISHAAN SEN

SOFTWARE ENGINEER | AI & ML ENTHUSIAST

BMC Kokta bypass, Bhopal | isen97509@gmail.com | linkedin.com/in/Ishaan784

SUMMARY

Motivated Computer Science undergraduate with a strong technical foundation in Artificial Intelligence, Machine Learning, and Robotics. I combine a passion for software development with practical experience in engineering autonomous systems. Eager to apply my multidisciplinary skills to optimize algorithms and deliver innovative, intelligent solutions.

EXPERIENCE & LEADERSHIP

Jan 2024 - Present

Google Student Ambassador | Technocrats Institute of Technology

- Developed "Gemini Student Hub," a centralized web platform for AI resources.
- Promoted AI/ML adoption through campus workshops on Google technologies.

Technical Lead & Hardware Head | Technocrats Institute of Technology

- Incubation Centre: Serving as Hardware Head, overseeing technical resources and guiding hardware prototyping projects.
- Drone Club: Engineered surveillance drones, automated cars, and humanoid robots, focusing on hardware assembly and system tuning.
- TIT Developer Group: Organized flagship events like 'CodeSprint', hackathons, and AI/ML seminars with industry founders (Nova, MJ AI).
- ProbCoder: Managed technical operations by developing the official club website and automated registration forms.

PROJECTS

Jan 2024 - Present

- AI & Automation: Developed Geospatial AI (mapping), Arise (voice/email automation), MindMate (mental health bot), and TrustMate (deepfake detector).
- Robotics: Engineered PID Line Follower and Autonomous Obstacle Car; optimized sensor integration and control algorithms.
- Web & Startup: Built JadhavJester (startup platform), MinuteMatters (productivity tool), and a personal portfolio website.
- Mobile Apps: Created Lets Play (gaming app); led technical QA & testing for Upastithi and Nivass utility apps.

SKILLS

- Languages: Python, C++, Java, JavaScript, SQL, HTML/CSS.
- AI & Machine Learning: TensorFlow, OpenCV, Scikit-learn, NLP (Natural Language Processing), Pandas, NumPy.
- Development Frameworks: React.js, Flask, Bootstrap.
- Hardware & Robotics: Arduino, IoT, Embedded Systems, Sensor Integration (PID, Ultrasonic).
- Tools & Platforms: Git, GitHub, VS Code, Linux.
- Soft Skills: Leadership, Technical Event Management, Team Mentorship.

EDUCATION

Sep 2008 - Present

- B.Sc in Data Science | Indian Institute of Technology (IIT), Madras | Pursuing
- B.Tech in CSE (AI & ML) | TIT Bhopal | 2024 – 2028 | CGPA: 7
- Class XII | School of Excellence No.1 | Percentage: 72%
- Class X | Sacred Heart Convent High School (ICSE) | Percentage: 81%

ADDITIONAL INFORMATION

- Languages:** English, Hindi, Japanese (learning).
