ISHAAN SEN

SOFTWARE ENGINEER | AI & ML SPECIALIST

Bhopal, India +91 7222949347 ishaansenres@gmail.com ishaanyk.github.io/portfolio-me linkedin.com/in/ishaan784
github.com/IshaanYK

Computer Science undergraduate specializing in local LLM deployment, multi-agent frameworks, and robotics. Proven track record in high-concurrency architecture development, computer-aided drug discovery systems, and global algorithmic hackathons. Deeply experienced in building plug-and-play AI pipelines, embedded realtime controls, and full-stack software engines.

EDUCATION

Technocrats Institute of Technology — 2024 – 2028
B.Tech in ComputerScience&Eng.(AI&ML) — CGPA: 7.1
Bhopal, India

IIT Madras — 2025 – 2029
B.Sc in DataScience and Applications — Remote

School of Excellence No.1 — Completed
Class XII (PCM) — Percentage: 72%
Chhatarpur, India

Sacred Heart Convent High School — Completed
Class X (ICSE) — Percentage: 81%
Khajuraho, India

EXPERIENCE & LEADERSHIP

Compassion-A-Thon 3.0 | IIT Madras — 2026
Algorithmic Competition — Ranked 5th Globally
- Ranked **5th globally** out of 500+ elite engineering teams in solving complex algorithmic optimization problems.

Hack IIT Kanpur | C3iHub — Jan 2026
Global Cybersecurity Hackathon — Ranked 11th Globally
- Secured **11th place globally** out of 200 select threat hunting and cryptography teams.

Technical Head | AI Bioscience Lab, TIT — Jan 2024 – Present
IncubationCentre • TIT — Bhopal, India
- Directing AI strategy and prototyping workflows for high-throughput computational drug discovery.
- Conducting practical tech labs, lecturing undergraduate students, and mentoring juniors in advanced software architectures.

AI Robotics & Drone Society , TIT
Core Committee • TIT
- Organizing Flagship events , workshop , hackarthons and more .

Yuva Intern by Henry Harvin — JULY - AUGUST 2026
Engineering Intern
- Coordinated structural AI adoption (Gemini 2.0 to 3.0) across campus, representing multiple student cohorts.
- Data Science, Python, Data Analysis, Data Visualization, and work on real-world datasets while learning from experienced mentors.

The Stemonef Enterprises — MARCH - JUNE 2026
Fellowship Engineering Intern
- Shipped production-level optimizations for Project GAIA , EPOACH & STEAMI. Turbo Quant machine learning frameworks.

PROJECTs

ARISE - Artificial Responsive Intelligent System Environment — SOFTWARE
- A.R.I.S.E. is a fully local, modular AI assistant powered by a split-brain multi-model architecture for efficient offline intelligence.
  Stack: NVIDIA CUDA, SQLite, llama-cpp-python, GGUF

PoliTag MVP • AI Political Debate & Social Ecosystem — Live Link
- Designed a social architecture targeting political polarization and lack of civic tools for young adults.
  Stack: Next.js, React, Speech-To-Text, Supabase

CallAgent
- Engineered voice dialer reading script lines from client sheets with ElevenLabs multilingual rendering.
  Stack: Twilio, ElevenLabs, CDN Cache, Python

Storage Widget • Non-Blocking Windows Desktop Application — Widget
- Coded a lightweight Tkinter dark-theme overlay that monitors connected system partition flags in real time.
  Stack: Tkinter, psutil, Multithreading, Windows API

SKILLS

LANGUAGES: Python, C, C++, Java, HTML/CSS.

AI, ML & DEV: TensorFlow, OpenCV, Scikit-learn, NLP (spaCy), Model Quantization, Vector DBs, FastAPI, Tkinter, Blender, Git, Linux

HARDWARE & CORE: Arduino, ESP32, Pixhawk microcontrollers, IoT Systems, Low-level PID Tuning, Drone Fabrication
